### DETAILED ACTION

Applicant's arguments filed 10/14/10 have been fully considered but they are not persuasive. See argument below. Previous rejections not addressed below are withdrawn.

#### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 9,10 and 16-20 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

The phrases:

"calcium oxide composition" in claim 9 ;

"calcium oxide composition is calcium hydroxide" in claim 16;

"substantially" in claims 17,18 and 20;

"multi-section oven" in claim 19;

"bonding agent defined by a calcium hydroxide" in claim 20

appear to be new matter.

Claim 10 does not explain what *solvent or substance* the pellets are 100% soluble in.

Please explain or clarify.

The Examiner acknowledges spelling corrections to the specification in the Applicants' response of 10/14/10.

***Allowable Subject Matter***

The prior art does not teach or suggest the instant fertilizer comprising a bonding agent as well as the instant amounts of zinc, iron and sulfur.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
